1. **Contraction Joint (also called saw cuts/control joints)**

The term “Contraction Joint” is taken from ACI 302 document to maintain consistent nomenclature with the concrete and engineering industry.

Scale: Full Scale
Option: For “art work areas”. See buried contraction joint. Refer to detail 3
*Care should be taken by concrete contractor to provide a straight joint, placed in coordination with design teams consideration of final grid pattern. Square edges encouraged, tooled edges discouraged.
**This detail must be used for radiant heated floors.
